1 Overview of the British Council

The British Council is the UK's international organisation for cultural relations and educational opportunities. We create friendly knowledge and understanding between the people of the UK and other countries. We do this by making a positive contribution to the UK and the countries we work with – changing lives by creating opportunities, building connections and engendering trust.

We work with over 100 countries across the world in the fields of arts and culture, English language, education and civil society. Each year we reach over 20 million people face-to-face and more than 500 million people online, via broadcasts and publications. Founded in 1934, we are a UK charity governed by Royal Charter and a UK public body

The British Council employs over 10,500 staff worldwide. It has its headquarters in the UK, with offices in London, Manchester, Belfast, Cardiff and Edinburgh. Further information can be viewed at www.britishcouncil.org.

Its primary charitable objects are set out in the Charter and are stated to be to:

- Promote cultural relationships and the understanding of different cultures between people and peoples of the United Kingdom and other countries;
- Promote a wider knowledge of the United Kingdom;
- Develop a wider knowledge of the English language;
- Encourage cultural, scientific, technological and other educational co-operation between the United Kingdom and other countries; and
- Otherwise promote the advancement of education.

2 Introduction and Background to the Project

2.1. In 2014, Peru President Ollanta Humala passed the law for University Reform in Peru: among the four pillars for a successful implementation the text established 'Enhanced University performance', which mandated that the government would promote the creation of scholarships opportunities, access to competitive funds, research programs, and national and international mobility schemes for academics and students, among other Higher Education enhancement mechanisms. (Law N° 30220, *University Law-2014*)

2.2. In order to start with the implementation of the above referred law, President Humala approves the Policy on Quality Assurance for University Higher Education, in September 2015 (<https://www.sunedu.gob.pe/aprueban-la-politica-de-aseguramiento-de-la-calidad-de-la-educacion-superior-universitaria/>) which, among its strategic guidelines and actions, establishes the need to foster internationalisation strategies and mechanisms within the sector.

2.3. *The Reform of the Peruvian University System: Internationalisation, Progress, Challenges and Opportunities*, a [research](#) on the Peruvian university reform process commissioned by British Council Peru in 2016, points out the fact that there is current openness to three main lines of action regarding internationalisation efforts: international mobility, quality assurance and mutual recognition, and access and sustainability; understanding 'openness' as the government and universities' commitment to generate conditions that would foster international exchange of students, academics, researchers, programmes, and institutions, which is made evident through the provision of more funds for national and international mobility.

2.5. British Council [report](#) *The Shape of Global Higher Education* Vol. 2, released in July 2017, assessed levels of Peruvian government and universities support for internationalisation schemes that include student mobility, transnational education schemes, and international research engagement; it was a comparative study among 36 countries around the globe, in which Peru is rated as weak in terms of supporting mobility schemes.

2.7. Acknowledging the value of the above referred contextual information about policies in place, needs, interests and results, it is also important to realise that more comprehensive research and analysis of Peruvian international inward and outward mobility trends are required in order to better understand it and to facilitate the design of effective strategies for stronger engagement with the UK Higher Education sector. There are certain sources of information; however, they lack depth and width, besides being dispersed, and do not have the required dimensions to help propose and support systemic changes.

2.8. As part of the country plan, in regards with its Higher Education Policy and Advocacy project, British Council Peru is interested in obtaining more quantitative and qualitative insights about the trends in international mobility in Higher Education, including the undergraduate, postgraduate and research related international engagement of Peruvian universities and Peruvian student attitudes towards overseas study. That will contain information about outward and inward flows, which will allow British Council and the UK higher education sector as a whole to have a better understanding of the scenario and some underlying reasons that explain the shape that it is adopting; that in order to enhance the strategy to position the UK HE system as a destination of choice and to increase bilateral HE engagement. In addition to that, the research results will also serve to measure the impact of future interventions.

13.1 All clarification requests should be submitted to william.machaca@britishcouncil.org by the Clarification Deadline, as set out in the Timescales section of this ITT. The British Council is under no obligation to respond to clarification requests received after the Clarification Deadline.

13.3 The British Council reserves the right to issue any clarification request made by you, and the response, to all potential suppliers unless you expressly require it to be kept confidential at the time the request is made. If the British Council considers the contents of the request not to be confidential, it will inform you and you will have the opportunity to withdraw the clarification query prior to the British Council responding to all potential suppliers.

13.4 The British Council may at any time request further information from potential suppliers to verify or clarify any aspects of their tender response or other information they may have provided. Should you not provide supplementary information or clarifications to the British Council by any deadline notified to you, your tender response may be rejected in full and you may be disqualified from this Procurement Process.

14 Evaluation Criteria

14.1 You will have your tender response evaluated as set out below:

Stage 1: Tender responses will be checked to ensure that they have been completed correctly and all necessary information has been provided. Tenders responses correctly completed with all relevant information being provided will proceed to Stage 2. Any tender responses not correctly completed in accordance with the requirements of this ITT and/or containing omissions may be rejected at this point. Where a tender response is rejected at this point it will automatically be disqualified and will not be further evaluated.

Stage 2: The completed Qualification Questionnaire will then be reviewed to confirm that the potential supplier meets all of the qualification criteria set out in the questionnaire. Potential suppliers that meet the qualification criteria will proceed to Stage 3. Potential suppliers that do not meet the qualification criteria set out in the Qualification Questionnaire may be excluded from the Procurement Process at this point. Where a potential supplier is excluded at this point, its tender response will be rejected in full and not evaluated further and the supplier will automatically be disqualified from this Procurement Process.

Stage 3: If a bidder succeeds in passing Stages 1 and 2 of the evaluation, then it will have its detailed tender response to the British Council’s requirements evaluated in accordance with the evaluation methodology set out below. Information provided as part of Qualification Questionnaire responses may also be verified as part of this stage.

14.2 Award Criteria – Responses from potential suppliers will be assessed to determine the most economically advantaged tender using the following criteria and weightings and will be assessed entirely on your response submitted:

Criteria	Weighting
Knowledge and experience	25%
Methodology and approach	35%
Timetable and staffing	15%
Costing and value for money	25%

14.3 Scoring Model – Tender responses will be subject to an initial review at the start of Stage 3 of the evaluation process. Any tender responses not meeting mandatory requirements or constraints (if any) will be rejected in full at this point and will not be assessed or scored further. Tender responses not so rejected will be scored by an evaluation panel appointed by the British Council for all criteria other than Commercial using the following scoring model:

Points	Interpretation
--------	----------------

10	Excellent – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas evidence requested in the level of detail requested. This, therefore, is a detailed excellent response that meets all aspects of the requirement leaving no ambiguity as to whether the bidder can meet the requirement.
7	Good – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas of evidence requested, but contains some trivial omissions in relation to the level of detail requested in terms of either the response or the evidence. This, therefore, is a good response that meets all aspects of the requirement with only a trivial level of ambiguity due to the bidders failure to provide all information at the level of detail requested.
5	Adequate – Overall the response demonstrates that the bidder meets all areas of the requirement, but not all of the areas of evidence requested have been provided. This, therefore, is an adequate response, but with some limited ambiguity as to whether the bidder can meet the requirement due to the bidder’s failure to provide all of the evidence requested.
3	Poor – The response does not demonstrate that the bidder meets the requirement in one or more areas. This, therefore, is a poor response with significant ambiguity as to whether the bidder can meet the requirement due to the failure by the bidder to show that it meets one or more areas of the requirement.
0	Unacceptable – The response is non-compliant with the requirements of the ITT and/or no response has been provided.

14.4 Commercial Evaluation – Your “Overall Price” for the goods and/or services will be evaluated by the evaluation panel for the purposes of the commercial evaluation. Prices must not be subject to any pricing assumptions, qualifications or indexation not provided for explicitly by the British Council as part of the pricing approach. In the event that any prices are expressed as being subject to any pricing assumptions, qualifications or indexation not provided for by the British Council as part of the pricing approach, the British Council may reject the full tender response at this point. The British Council may also reject any tender response where the Overall Price for the goods and/or services is considered by the British Council to be abnormally low following the relevant processes set out under the EU procurement rules. A maximum offer score of 10 will be awarded to the tender response offering the lowest “Overall Price”. Other tender responses will be awarded a mark by application of the following formula: (Lowest Overall Price/Overall Price being evaluated) x 10 (rounded to two decimal places) = commercial score.

14.5 Moderation and application of weightings – The evaluation panel appointed for this procurement will meet to agree and moderate scores for each award criteria. Final scores in terms of a percentage of the overall tender score will be obtained by applying the relevant weighting factors set out as part of the award criteria table above. The percentage scores for each award criteria will be amalgamated to give a percentage score out of 100.

14.6 The winning tender response – The winning tender response shall be the tender response scoring the highest percentage score out of 100 when applying the above evaluation methodology, which is also supported by any required verification evidence (to include, without limitation, any updated information or references relating to any Qualification Question responses) obtained by the Authority relating to any self-certification or other requirements referred to in the Qualification Questionnaire. If any verification evidence requested from a supplier, or a relevant third party as may be referred to by the supplier in the Qualification Questionnaire as a party prepared to provide such information, is not provided in accordance with any timescales specified by the British Council and/or any evidence reviewed by the British Council (whose decision shall be final) does not demonstrate compliance with any such requirement, the British Council may reject that tender response in full and disqualify the potential winning supplier from the Procurement Process at that point.
