2 Introduction and Background to the Project / Programme

2.1 The purpose of this Request for Proposal is to select a provider with expertise in professional training and in the UK Education sector to support the British Council in delivering an online capacity building programme for educational counsellors. The targeted participants of the programme will be professionals mainly from Brazil, Mexico and Colombia, with the potential inclusion of professionals from other Latin American and Caribbean (LATAC) countries. These participants work in diverse roles, such as within schools, education departments, educational companies/agencies, startups, or as independent professionals.

The chosen provider is expected to conduct comprehensive online training sessions, furnish reliable information resources, and facilitate mentoring sessions. The overarching goal is to empower participants,

ensuring they possess the confidence and knowledge necessary to effectively counsel students and their families on the merits of the UK as a high-quality study destination.

2.2 Promoting the UK as a premier international study destination is at the heart of the British Council's strategy. We do this by working both with prospective international students (via Study UK programme) and with those that influence them (via International Student Mobility and Marketing – ISMM).

We have long recognised that education agents and school counsellors have a critical role to play in how the UK engages and recruits international students.

Recognising the pivotal role that education agents and school counsellors play in engaging and recruiting international students for the UK, our ISMM programme aims to enhance the overall international student experience. The platform UK Hub for Agents and Counsellors (<https://agent-counsellor-ukhub.britishcouncil.org>) is a vital component of ISMM, contributing to the achievement of specific objectives:

- Increasing counsellors' awareness of the UK Hub, the UK Higher Education sector, and Equality, Diversity, and Inclusion (EDI).
- Growing the number of registered and certified agents and counsellors on the UK Hub.
- Sustaining engagement with the British Council among agents and counsellors.

The intermediate expected outcome of ISMM is to expand the network of trained agents and counsellors who have the confidence to deliver a high-quality experience to international students. The long-term expected outcome is to increase the number of students having a British Council 'touch-point', increase quality experience through agents and counsellors and, therefore, to protect and advance the reputation of the UK as a quality study destination.

Consequently, the consultancy sought through this Request for Proposal will play a crucial role in supporting the British Council by delivering high-quality, reliable, and comprehensive training content tailored to the specific needs of counsellors in the Americas.

The UK Hub for Agents and Counsellors

The UK agent and counsellor training programme aims to become the premier training initiative for all professionals working with UK education providers. Successful completion of this programme equips individual agents and counsellors with comprehensive knowledge of the UK education system and effective student counselling skills.

The thoroughness of our training instills confidence in UK education providers, assuring them that they are collaborating with well-informed and ethical education agents. Equally important, it instills confidence in prospective international students, ensuring they anticipate a high-quality experience when considering studying and residing in the UK.

Upon successful completion of the training course and endorsement of the National Code of Ethical Practice for Education Agents, the participants receive an online certificate from the British Council, officially recognizing their knowledge and understanding. Furthermore, their credentials will be included in the Database of Certified Agents and Counsellors, a resource utilized by both students and institutions to identify potential agent partners.

Key topics covered in the training for Agents and Counsellors:

- Why choose the UK?
- The UK education system
- Preparing students for a UK education
- Student experience
- Values and ethics
- Visas and immigration
- Post-study options
- Working with the British Council

The registration, the training and the certification for agents and counsellors are free of charge. The Hub members can also have access to Study UK toolkits, announcements of events, webinars, new resources or updates on UK education, alerts and updates from the UK government and UK sector bodies.

Stage 1: Proposals will be checked to ensure that they have been completed correctly and all necessary information has been provided. responses correctly completed with all relevant information being

provided and all mandatory requirements as outlined in Section 8 met will proceed to Stage 2. Any Proposal not correctly completed in accordance with the requirements of this RFP and/or containing omissions may be rejected at this point. Where a Proposal is rejected at this point it will automatically be disqualified and will not be further evaluated.

Stage 2: If a bidder succeeds in passing Stages 1 of the evaluation, then it will have its Proposal evaluated in accordance with the evaluation methodology set out below.

13.2 Award Criteria – Responses from potential suppliers will be assessed to determine the most economically advantageous proposal using the following criteria and weightings and will be assessed entirely on your response submitted:

Criteria	Weighting
Social Value: Assessing the impact of a proposal on society, considering factors like addressing social challenges, promoting inclusivity, improving quality of life, and supporting sustainable development.	10%
Quality: Evaluating the overall excellence and effectiveness of a proposal, including the feasibility of objectives, the soundness of the methodology, and the potential for desired outcomes.	25%
Methodology and Approach: Examining the proposed methods, approaches, or strategies for implementation, considering factors like appropriateness, innovation, and feasibility	45%
Commercial: Assessing the economic sustainability of the proposed project, including market demand, cost-effectiveness, revenue generation potential, and long-term viability.	20%

13.3 Scoring Model – Proposals will be subject to an initial review at the start of Stage 2 of the evaluation process. Any Proposals not meeting mandatory requirements or constraints (if any) will be rejected in full at this point and will not be assessed or scored further. Proposals not so rejected will be scored by an evaluation panel appointed by the British Council for all criteria other than Commercial using the following scoring model:

Points	Interpretation
10	Excellent – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas evidence requested in the level of detail requested. This, therefore, is a detailed excellent response that meets all aspects of the requirement leaving no ambiguity as to whether the bidder can meet the requirement.

7	Good – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas of evidence requested, but contains some trivial omissions in relation to the level of detail requested in terms of either the response or the evidence. This, therefore, is a good response that meets all aspects of the requirement with only a trivial level ambiguity due the bidders failure to provide all information at the level of detail requested.
5	Adequate – Overall the response demonstrates that the bidder meets all areas of the requirement, but not all of the areas of evidence requested have been provided. This, therefore, is an adequate response, but with some limited ambiguity as to whether the bidder can meet the requirement due to the bidder’s failure to provide all of the evidence requested.
3	Poor – The response does not demonstrate that the bidder meets the requirement in one or more areas. This, therefore, is a poor response with significant ambiguity as to whether the bidder can meet the requirement due to the failure by the bidder to show that it meets one or more areas of the requirement.
0	Unacceptable – The response is non-compliant with the requirements of the RFP and/or no response has been provided.

13.4 Commercial Evaluation – Your “Overall Price” (as calculated in accordance with requirements of Annex 3 (Pricing Approach) for the goods and/or services will be evaluated by the evaluation panel for the purposes of the commercial evaluation, further information on this approach may be available in Annex 3. In the event that any prices are expressed as being subject to any pricing assumptions, qualifications or indexation not provided for by the British Council as part of the pricing approach, the British Council may reject the full Proposal at this point. The British Council may also reject any Proposal where the Overall Price for the goods and/or services is considered by the British Council to be abnormally low following the relevant processes set out under the procurement rules. A maximum offer score of 10 will be awarded to the Proposal offering the lowest “Overall Price”. Other Proposals will be awarded a mark by application of the following formula: (Lowest Overall Price/Overall Price being evaluated) x 10 (rounded to two decimal places) = commercial score.

13.5 Moderation and application of weightings – The evaluation panel appointed for this Procurement Process will meet to agree and moderate scores for each award criteria. Final scores in terms of a percentage of the overall Proposal score will be obtained by applying the relevant weighting factors set out as part of the award criteria table above. The percentage scores for each award criteria will be amalgamated to give a percentage score out of 100.

13.6 The Winning Proposal(s) - The winning Proposal shall be the Proposal scoring the highest percentage score out of 100 when applying the above evaluation methodology, which is also supported by any required verification evidence (to include, without limitation, any updated information)] obtained by the Authority relating to any self-certification or other requirements referred to at any time in this Procurement Process.
