

# Study UK Pre-Departure Briefing Indonesia 2020

## Overview

With its world-renowned academic reputation, the UK is one of the top study destinations for Indonesian students. With confident analytical thinking, and excellent communication skills developed in the home of the English language, UK graduates are also among the most employable in the world.

For students looking to begin their studies in the UK in 2020, we appreciate that Covid-19 has led to uncertainty. UK universities are preparing to welcome new students in autumn 2020. Almost all universities are preparing to deliver some in-person teaching this autumn term. Some will blend face-to-face teaching with online technology and tools to enhance student education and ensure teaching is delivered in a safe environment. In the UK, your wellbeing comes first. Study UK is holding the annual Pre-Departure Briefing to provide students who have been accepted to study in the UK from autumn 2020 with up-to-date information on what to expect and how to prepare. This year, the session will be held online. The briefing will cover several topics, including how UK institutions are adapting to the current environment, what to expect from the blended learning experience, visa arrangements, health and safety, and a sharing session with UK alumni.
