

Participation and Payment:

● Registration and Payment

Following the receipt of the registration, we will send you the confirmation and invoice by email. Payment should be made by the date indicated on the invoice. The registration can only be processed once full payment is received. As the workshop may be fully booked before the registration deadline of October 11, 2022, "first come, first pay and first served" policy applies.

● Feature Your Institution: Online Seminar Presentation Opportunity

The organizer will provide a general video meeting platform for university's separate 30-minute online presentation sessions to highlight your institution and featured PhD programs. Time slots are very limited, so early reservations are essential.

For rates and details,
please refer to the Registration & Contract.

Participation Guidelines:

1. Only regionally accredited academic institutions could be represented at the workshop.
2. Institutions may be represented by authorized delegates such as faculty professors, advisors, lecturers or in-house recruiters. Delegates should be qualified to introduce the PhD programs, curriculums, scholarship and all relevant admission policies, etc. to the students.
3. No third-party recruiters are accepted. The PhD Workshop exclusively promotes direct delegate-to-candidate communication.

The Talents Pool is Here

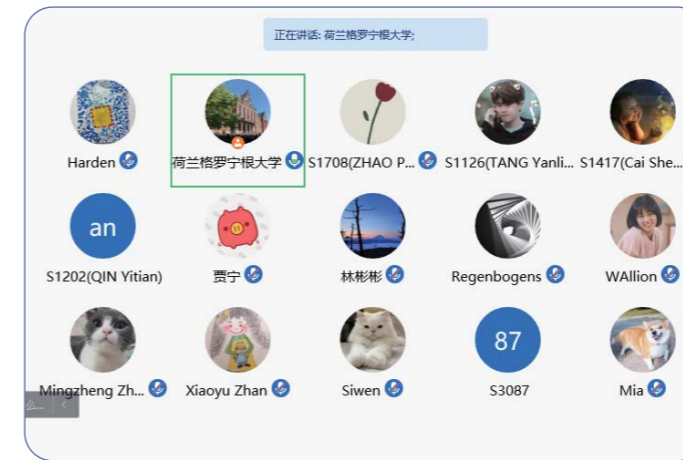

With great joint efforts of all our valuable partners and participating institutions, PhD Workshop China 2021 Virtual Event was held smoothly. More than 3,000 students registered for pursuing overseas PhD programs, and according to their registration information about 64% would be planning to start the PhD study or research in 2022.

Furthermore, the Chinese government is also to select more than 10,000 brilliant PhD candidates, including Full PhD Programs and Joint PhD Programs, from prime universities throughout the nation, and fund them for PhD study or research in excellent overseas universities and researching institutions. If you are looking for the future talents, welcome to join us in the right place at PhD Workshop China 2022 Virtual Event.

Exclusive iSchedule System

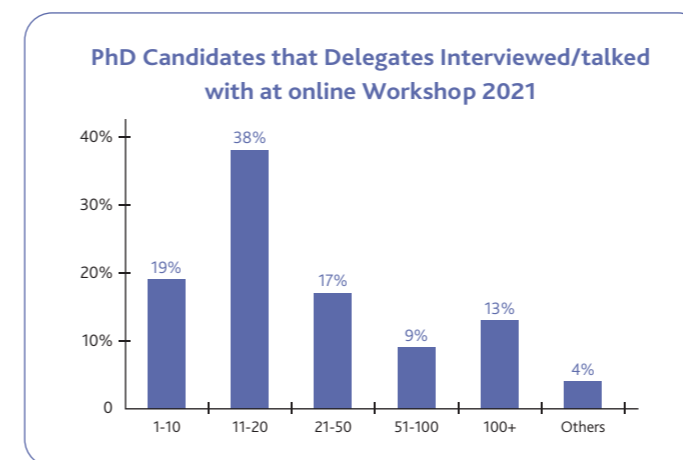

In order to better facilitate online communication and interview between overseas delegates and Chinese PhD candidates, the iSchedule system is exclusively designed for PhD Workshop China. All the registered overseas professors and delegates could make online interactive communication with the candidates through this iSchedule system, which could help delegates not only preview registered students' data including CV and research proposal so on, but also screen them and schedule face-to-face online interviews and meetings with shortlisted candidates. Thus, all the delegates will know whom you are going to interview at the workshop, which is: to know where you are and what you want, then be sure to find out the right ones.

Better Join than Skip

The past pandemic years have been almost tough for all of us. However, what we have experienced does not defeat us but makes us much stronger. Last November, the PhD Workshop China hosted its first-ever virtual event successfully. Some 105 registered delegates and professors from 49 universities and research institutions from 10 countries had conducted the online interviews with their selected PhD candidates from the 3000+ pre-registered students. Upon the responded questionnaire among them, 23% of them think they would be admitted through attending the PhD Workshop.

We believe that with the rapid development of online/video meeting platforms driven by new technology, we could do it better to satisfy most delegates and professors by virtually bringing delegates more top Chinese postgraduates and PhD candidates for online interviews and meetings through a friendly-used online platform. Better join than skip.

Trust in Delegates and Professors ...

After the PhD Workshop China 2021, we made Delegates Evaluation and it showed that more than 38% of the delegates interviewed 11 to 20 candidates, around 17% of the delegates interviewed 21 to 50 candidates, even 13% of them talked with more than 100 candidates, which would be very helpful for overseas delegates and professors to hunt for their talents.
