Unwavering Pursuit of PhD Study from Thousands of Chinese Candidate

PhD Workshop China 2023 was just a renewal of in-person event after 3 years virtual status. However, last November there still attracted around 3,000 pre-registered students across China. And some 1300 well-prepared candidates attended on site and fulfilled about 2000 interviews & meetings with professors, PhD program recruiters and officers. Per the post-event survey to these students, some 23% positively confirmed their admissions by the universities such as University of Melbourne, UNSW, Monash University, Memorial University of Newfoundland, University of Bayreuth, University of Groningen, Leiden University, Universidad Politecnica De Madrid, University of Manchester, University of Strathclyde, Stevens Institute of Technology etc by attending this PhD Workshop.

Is there a possibility that you would be admitted by these overseas universities through attending this Workshop?

China's Funding Policy for Foremost Intellectuals

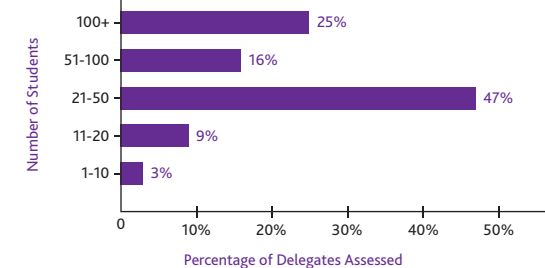

The Chinese government is still affirming its continued commitment to the policy that focuses on the selection and financial support of more than 10,000 outstanding PhD candidates for PhD study and research outbound. These individuals, hailing from premier universities across China, will be given the opportunity to pursue Full PhD Programs and Joint PhD Programs at distinguished universities and research institutions abroad. Participating in the PhD Workshop China will present you a valuable and immense opportunity to meet and interview with such exceptional talents for inclusion in your academic and research programs.

Embarking together with Peers for Better PhD Recruitment

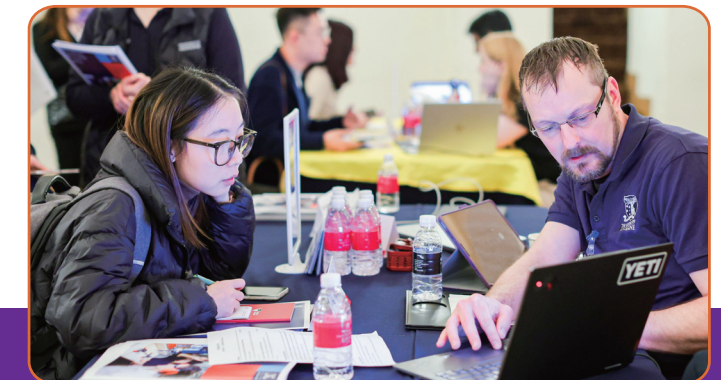

The PhD Workshop specially focuses on direct professor-to-candidate interviews and meetings. After the PhD Workshop China 2023, we made Delegates Evaluation and it responded that some 47% of the delegates interviewed 21 to 50 candidates at the PhD Workshop, and around 16% of the delegates interviewed 51 to 100 candidates, even 25% of them talked with more than 100+ candidates, which would be quite helpful for overseas professors and delegates to find out the talents for their excellent PhD programs.

PhD Candidates that Delegates Interviewed/talked with at PhD Workshop 2023 in Beijing

Distinctive iSchedule Appointment System Advancing Your Interviews

The PhD Workshop China emphasizes direct communication between professors and candidates to facilitate the in-person interviews and recruitment of qualified students for specific PhD programs. To streamline this process, the innovative iSchedule system was introduced since its debut in 2009. This intelligent platform enables professors not only to access and preview candidate registration details, such as resumes and research proposals, but also to efficiently filter and create one-on-one interviews or meetings with selected candidates. This approach significantly enhances the productivity of participation for both delegates and students.

Participation Guidelines:

● Participation Requirements

1. Only regionally accredited academic institutions may participate.
2. Authorized delegates such as faculty professors, advisors, lecturers or in-house recruiters may represent institutions.
3. No third party recruiters are allowed. The PhD Workshop exclusively promotes direct delegate-to-candidate interviews and meetings.
4. Only two delegates are permitted any time at one table during the workshop. If more than two delegates are expected, an additional table should be booked.

● Feature Your Institution: Seminar Presentation Opportunity

Separate 30-minute presentation sessions to highlight your institution and PhD programs are available on-site. Space and time slots are very limited, so early reservations are essential.

● Registration Payment

Following the receipt of the registration, we will send you the confirmation and invoice by email. Payment should be made by the date indicated on the invoice. The registration can only be processed once full payment is received. As the workshop may be fully booked before the registration deadline of **October 11, 2024**, "first come, first pay and first served" policy applies.

How to Register?

Visit the official website www.phdworkshop.cn for online registration, or complete the enclosed Registration & Contract and email us accordingly.
