

## **Research on TVET Governance: The role of the institutional leaders**

**Q1:** The price schedule suggests the price should relate to 14 days (and part 1 and 2) but the tender on P11 point 5 refers to 19 days. Please clarify.

**A1:** *19 days is the correct basis.*

**Q2:** Do you have a hypothesis in mind which you want tested?

**A2:** *No, not at this point*

**Q3:** Would we have access to information, and even the people, behind the previous two reports in the series?

**A3:** *We will try to accommodate an interview with the researchers of the two referenced reports, but we cannot guarantee their availability although this should be possible.*

**Q4:** The scope section of the brief says that the report should 'include Colombia, Indonesia, India, Kazakhstan, Morocco, Nigeria, Pakistan, South Africa, UK, Vietnam and the Western Balkans'. Can we treat the Western Balkans as a single territory?

**A4:** *Given the smaller number of institutions in each country we are happy to see these countries grouped to ensure sufficient response rates.*

**Q5:** Is it possible that the brief will expand beyond these 11 countries?

**A5:** *We do not anticipate this expanding beyond the targeted countries but the final list may have some variation subject to the inception meeting.*
