7 Specification

In June 2017 the British Council released 'Changing lives: Internationalising the Skills Sector', a report that focused on the value of internationalism within Technical Vocational Education and Training institutions.

Recommendation three of the report suggested that the British Council might look to create a number of case studies showing how students, their staff and their colleges benefitted from different forms of internationalism.

The Consultant will look to take this recommendation forward and would be responsible for gathering, developing and editing case studies from the UK Further Education Sector on the value of Internationalism ready to be published. The case studies will focus on the life changing impact internationalism has had on individuals and institutions, this may involve contacting alumni who have

since left institutions. In the case studies we would like to see the impact of a variety of international experiences beyond student mobility – although this may also be included.

Internationalism within this context of this report does not refer to just attracting international students and running programmes overseas, but any activity which reflects an international perspective or consideration in Skills Development in Vocational Education such as; - having an international mind set at organisational or policy level to understand global thought leadership, best practice and pedagogy - an understanding of global labour market needs and current trends to help build skills that are needed in the global community - encouraging an international cultural perspective in skills development initiatives to improve citizenship and soft skills - the development of curriculum and qualifications with international 'currency'.

The case studies will highlight the benefits of Internationalisation to the college, its staff and its students. Examples should draw on all international work carried out by training providers and not just work supported by British Council programmes. The case studies should showcase internationalism from throughout the United Kingdom. All case studies should be in line with the British Council branding and style guidelines and should be written in plain English.

Objectives

1. To develop 8 - 10 new impact stories from different institutions. The impact stories will be aimed at a UK audience and will be used as standalone publications.
2. The Consultant should arrange and conduct interviews (possible to use phone/skype) with external beneficiaries to gather the stories. They should obtain permission to use the stories, in line with British Council's data protection regulations.
3. The Consultant will then be responsible for developing the transcripts from the interviews in to captivating stories ready for publication.
4. Presenting the case studies in an education publication.

Due to the limited timescale it is necessary for Consultants to have their own networks to draw upon to gather and develop the stories by the 22nd March 2018.

The stories should be submitted in word format with relevant images and videos. Where possible interviews should be recorded and the transcripts should be provided to the British Council.

8 Mandatory Requirements / Constraints

8.1 As part of your tender response, you must confirm that you meet the mandatory requirements / constraints, if any, as set out in the British Council's specification forming part of this RFP. A failure to comply with one or more mandatory requirements or constraints shall entitle the British Council to reject a tender response in full.

A failure to comply with one or more mandatory requirements or constraints shall entitle the British Council to reject a tender response in full.

If the British Council considers the contents of the request not to be confidential, it will inform you and you will have the opportunity to withdraw the clarification query prior to the British Council responding to all potential suppliers.

13.4 The British Council may at any time request further information from potential suppliers to verify or clarify any aspects of their tender response or other information they may have provided. Should you not provide supplementary information or clarifications to the British Council by any deadline notified to you, your tender response may be rejected in full and you may be disqualified from this Procurement Process.

14 Evaluation Criteria

14.1 You will have your tender response evaluated as set out below:

Stage 1: Tender responses will be checked to ensure that they have been completed correctly and all necessary information has been provided. Tenders responses correctly completed with all relevant

information being provided will proceed to Stage 2. Any tender responses not correctly completed in accordance with the requirements of this RFP and/or containing omissions may be rejected at this point. Where a tender response is rejected at this point it will automatically be disqualified and will not be further evaluated.

Stage 2: The completed Qualification Questionnaire (*if used*) will then be reviewed to confirm that the potential supplier meets all of the qualification criteria set out in the questionnaire. Potential suppliers that meet the qualification criteria will proceed to Stage 3. Potential suppliers that do not meet the qualification criteria set out in the Qualification Questionnaire (*if used*) may be excluded from the Procurement Process at this point. Where a potential supplier is excluded at this point, its tender response will be rejected in full and not evaluated further and the supplier will automatically be disqualified from this Procurement Process.

Stage 3: If a bidder succeeds in passing Stages 1 and 2 of the evaluation, then it will have its detailed tender response to the British Council's requirements evaluated in accordance with the evaluation methodology set out below.

14.2 Award Criteria – Responses from potential suppliers will be assessed to determine the most economically advantages tender using the following criteria and weightings and will be assessed entirely on your response submitted:

Criteria	Weighting
Section 1: Understanding of British Council's Objectives for this work	10%
Section 2: Methodology, Approach and timescale	15%
Section 3: Strong writing skills and track record of writing case studies/success stories	20%
Section 4: Expert knowledge of the UK skills sector and a network of contacts in the FE sector.	15%
Section 5 – Costing and value for money	40%

14.3 Scoring Model – Tender responses will be subject to an initial review at the start of Stage 3 of the evaluation process. Any tender responses not meeting mandatory requirements or constraints (if any) will be rejected in full at this point and will not be assessed or scored further. Tender responses not so rejected will be scored by an evaluation panel appointed by the British Council for all criteria other than Commercial using the following scoring model:

Points	Interpretation
--------	----------------

10	Excellent – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas evidence requested in the level of detail requested. This, therefore, is a detailed excellent response that meets all aspects of the requirement leaving no ambiguity as to whether the bidder can meet the requirement.
7	Good – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas of evidence requested, but contains some trivial omissions in relation to the level of detail requested in terms of either the response or the evidence. This, therefore, is a good response that meets all aspects of the requirement with only a trivial level ambiguity due the bidders failure to provide all information at the level of detail requested.
5	Adequate – Overall the response demonstrates that the bidder meets all areas of the requirement, but not all of the areas of evidence requested have been provided. This, therefore, is an adequate response, but with some limited ambiguity as to whether the bidder can meet the requirement due to the bidder’s failure to provide all of the evidence requested.
3	Poor – The response does not demonstrate that the bidder meets the requirement in one or more areas. This, therefore, is a poor response with significant ambiguity as to whether the bidder can meet the requirement due to the failure by the bidder to show that it meets one or more areas of the requirement.
0	Unacceptable – The response is non-compliant with the requirements of the RFP and/or no response has been provided.

14.4 Commercial Evaluation – Your “Overall Price” (as calculated in accordance with requirements of Annex [3] (Pricing Approach) for the goods and/or services will be evaluated by the evaluation panel for the purposes of the commercial evaluation. Prices must not be subject to any pricing assumptions, qualifications or indexation not provided for explicitly by the British Council as part of the pricing approach. In the event that any prices are expressed as being subject to any pricing assumptions, qualifications or indexation not provided for by the British Council as part of the pricing approach, the British Council may reject the full tender response at this point. The British Council may also reject any tender response where the Overall Price for the goods and/or services is considered by the British Council to be abnormally low following the relevant processes set out under the EU procurement rules. A maximum offer score of 10 will be awarded to the tender response offering the lowest “Overall Price”. Other tender responses will be awarded a mark by application of the following formula: (Lowest Overall Price/Overall Price being evaluated) x 10 (rounded to two decimal places) = commercial score.

14.5 Moderation and application of weightings – The evaluation panel appointed for this procurement will meet to agree and moderate scores for each award criteria. Final scores in terms of a percentage of the overall tender score will be obtained by applying the relevant weighting factors set out as part of the award criteria table above. The percentage scores for each award criteria will be amalgamated to give a percentage score out of 100.

14.6 The winning tender response – The winning tender response shall be the tender response scoring the highest percentage score out of 100 when applying the above evaluation methodology, which is also supported by any required verification evidence (to include, without limitation, any updated information or references relating to any Qualification Question responses) obtained by the Authority relating to any self-certification or other requirements referred to in the Qualification Questionnaire (*if used*). If any verification evidence requested from a supplier, or a relevant third party as may be referred to by the supplier in the Qualification Questionnaire (*if used*) as a party prepared to provide such information, is not provided in accordance with any timescales specified by the British Council and/or any evidence reviewed by the British Council (whose decision shall be final) does not demonstrate compliance with any such requirement, the British Council may reject that tender response in full and disqualify the potential winning supplier from the Procurement Process at that point.
