**For:** Consultancy to Deliver STEAM Challenge in Jamaica

**Date:** September 25, 2023

### **1 Overview of the British Council**

1.1 The British Council is the UK's international organisation for cultural relations and educational opportunities. We create friendly knowledge and understanding between the people of the UK and other countries. We do this by making a positive contribution to the UK and the countries we work with – changing lives by creating opportunities, building connections and engendering trust.

1.2 We work with over 100 countries across the world in the fields of arts and culture, English language, education and civil society. Each year we reach over 20 million people face-to-face and more than 500 million people online, via broadcasts and publications. Founded in 1934, we are a UK charity governed by Royal Charter and a UK public body

1.3 The British Council employs over 10,500 staff worldwide. It has its headquarters in the UK, with offices in London, Manchester, Belfast, Cardiff and Edinburgh. Further information can be viewed at [www.britishcouncil.org](http://www.britishcouncil.org).

### **2 Introduction and Background to the Project / Programme**

2.1 British Council Jamaica through its school programme has successfully positioned itself as one of the main driving forces behind Science, Technology, Engineering, Arts and Mathematics (STEAM) education in Jamaica and has sought to create greater opportunity for exchange between Jamaica and the UK through leveraging the British Council's expertise in STEAM Education. The implementation of the National STEAM Forum, the Commonwealth Connections UK in 2022 Project, commissioning of the National STEAM Education Report Jamaica, and the UK STEAM Study Tour between 2021/22 and 2022/23 created meaningful dialogue between Jamaica and the UK to envision and collaborate on how to grow and reform the school system in Jamaica in a meaningful way. These initiatives have directly responded to the priorities of the Government of Jamaica (GoJ) in contributing to the development of a STEAM ecosystem by connecting policy makers, teachers, and young people to broaden their experiences. The next step is to continue working on developing the STEAM ecosystem in Jamaica throughout 2023/24 under our STEAM Education Programme in Jamaica by leveraging the expertise of the UK as a sector expert.

This project aims to support the GoJ to further develop the STEAM Ecosystem in Jamaica as committed under our five (5) year Memorandum of Understanding with the Ministry of Education and Youth (MOEY) and the National Education Trust (NET) signed in May 2023. The British Council in Jamaica school pilot programme this year will be:

- To improve access to over 1,500 young people in Computational Thinking abilities so they can access the STEAM ecosystem in Jamaica. Strengthen creativity and innovation abilities in young people through the STEAM competition and training.
- To support the development of the STEAM ecosystem in Jamaica by delivering capacity building training for 300 teachers infusing Computational thinking pedagogy applied to entrepreneurship and creativity throughout the national standards curriculum, working with the Ministry of Education.
- To conceptualise a national STEAM policy that will guide the development of a STEAM ecosystem through a sustainable approach connecting the various actors at each education, community, and societal levels.
- To facilitate dialogue between STEAM stakeholders in Jamaica through workshops and a two-day symposium to explore the way forward for developing the STEAM ecosystem.

This project is being implemented under our wider 'Future of Creativity' programme which brings together the diverse voices of the UK and the Caribbean to imagine the future of arts and education relations between the two cultures through a comprehensive portfolio of activities over the course of 2023. The programme is estimated to reach 20,000 people.

The British Council Jamaica sees this as an opportunity to have national impact within the education landscape in over 200 secondary schools. This will open opportunities to widen our footprint to deliver scalable programmes in education and arts programmes, specifically STEAM in Jamaica. The participation of partners such as the National Education Trust (NET) will generate income for the British Council which will not only increase our impact but will see the British Council being involved in the ground-breaking development of a clear comprehensive framework that guides the STEAM ecosystem, ensuring that all students at the secondary level have access to quality education, regardless of their background.

### **14 Evaluation Criteria**

14.1 You will have your tender response evaluated as set out below:

**Stage 1:** Tender responses will be checked to ensure that they have been completed correctly and all necessary information has been provided. Tenders responses correctly completed with all relevant information being provided will proceed to Stage 2. Any tender responses not correctly completed in accordance with the requirements of this RFP and/or containing omissions may be rejected at this point. Where a tender response is rejected at this point it will automatically be disqualified and will not be further evaluated.

**Stage 2:** The completed Qualification Questionnaire (*if used*) will then be reviewed to confirm that the potential supplier meets all of the qualification criteria set out in the questionnaire. Potential suppliers that meet the qualification criteria will proceed to Stage 3. Potential suppliers that do not meet the qualification criteria set out in the Qualification Questionnaire (*if used*) may be excluded from the Procurement Process at this point. Where a potential supplier is excluded at this point, its tender response will be rejected in full and not evaluated further and the supplier will automatically be disqualified from this Procurement Process.

**Stage 3:** If a bidder succeeds in passing Stages 1 and 2 of the evaluation, then it will have its detailed tender response to the British Council's requirements evaluated in accordance with the evaluation methodology set out below. Information provided as part of Qualification Questionnaire (*if used*) responses may also be verified as part of this stage.

14.2 Award Criteria – Responses from potential suppliers will be assessed to determine the most economically advantages tender using the following criteria and weightings and will be assessed entirely on your response submitted:

Criteria	Weighting
Social Value	10%
Quality	20%
Methodology and Approach	30%
Commercial	40%

14.3 Scoring Model – Tender responses will be subject to an initial review at the start of Stage 3 of the evaluation process. Any tender responses not meeting mandatory requirements or constraints (if any) will be rejected in full at this point and will not be assessed or scored further. Tender responses not so rejected will be scored by an evaluation panel appointed by the British Council for all criteria other than Commercial using the following scoring model:

Points	Interpretation
--------	----------------

<b>10</b>	<b>Excellent</b> – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas evidence requested in the level of detail requested. This, therefore, is a detailed excellent response that meets all aspects of the requirement leaving no ambiguity as to whether the bidder can meet the requirement.
<b>7</b>	<b>Good</b> – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas of evidence requested, but contains some trivial omissions in relation to the level of detail requested in terms of either the response or the evidence. This, therefore, is a good response that meets all aspects of the requirement with only a trivial level ambiguity due the bidders failure to provide all information at the level of detail requested.
<b>5</b>	<b>Adequate</b> – Overall the response demonstrates that the bidder meets all areas of the requirement, but not all of the areas of evidence requested have been provided. This, therefore, is an adequate response, but with some limited ambiguity as to whether the bidder can meet the requirement due to the bidder’s failure to provide all of the evidence requested.
<b>3</b>	<b>Poor</b> – The response does not demonstrate that the bidder meets the requirement in one or more areas. This, therefore, is a poor response with significant ambiguity as to whether the bidder can meet the requirement due to the failure by the bidder to show that it meets one or more areas of the requirement.
<b>0</b>	<b>Unacceptable</b> – The response is non-compliant with the requirements of the RFP and/or no response has been provided.

14.4 Commercial Evaluation – Your “Overall Price” (as calculated in accordance with requirements of Annex [3] (Pricing Approach) for the goods and/or services will be evaluated by the evaluation panel for the purposes of the commercial evaluation. Prices must not be subject to any pricing assumptions, qualifications or indexation not provided for explicitly by the British Council as part of the pricing approach. In the event that any prices are expressed as being subject to any pricing assumptions, qualifications or indexation not provided for by the British Council as part of the pricing approach, the British Council may reject the full tender response at this point. The British Council may also reject any tender response where the Overall Price for the goods and/or services is considered by the British Council to be abnormally low following the relevant processes set out under the EU procurement rules. A maximum offer score of 10 will be awarded to the tender response offering the lowest “Overall Price”. Other tender responses will be awarded a mark by application of the following formula: (Lowest Overall Price/Overall Price being evaluated) x 10 (rounded to two decimal places) = commercial score.

14.5 Moderation and application of weightings – The evaluation panel appointed for this procurement will meet to agree and moderate scores for each award criteria. Final scores in terms of a percentage of the overall tender score will be obtained by applying the relevant weighting factors set out as part of the award criteria table above. The percentage scores for each award criteria will be amalgamated to give a percentage score out of 100.

14.6 The winning tender response – The winning tender response shall be the tender response scoring the highest percentage score out of 100 when applying the above evaluation methodology, which is also supported by any required verification evidence (to include, without limitation, any updated information or references relating to any Qualification Question responses) obtained by the Authority relating to any self-certification or other requirements referred to in the Qualification Questionnaire (*if used*). If any verification evidence requested from a supplier, or a relevant third party as may be referred to by the supplier in the Qualification Questionnaire (*if used*) as a party prepared to provide such information, is not provided in accordance with any timescales specified by the British Council and/or any evidence reviewed by the British Council (whose decision shall be final) does not demonstrate compliance with any such requirement, the British Council may reject that tender response in full and disqualify the potential winning supplier from the Procurement Process at that point.
