7 Specification

British Council in Perú is looking for a consultant or consultants in the UK with proven and extensive experience in quality assurance promotion and supervision in higher education, in the UK and internationally. In-depth knowledge and understanding of quality assurance systems and regulatory frameworks. Experience in training and consultation in the HE sector with focus on quality assurance supervision and distance education quality assessment.

7.1 Objectives and Approach

The Consultant(s) should develop a Training Programme on Quality Assessment of University Distance Education, in line with quality assurance requirements. The training will be provided for twenty supervisory staff at SUNEDU - the National Superintendence of University Higher Education.

The programme aims to have the staff members complete the training with an action plan so that they can apply what they learn in their work. Support will also be provided in planning further actions through follow-up sessions. Evidence and results from the training needs to be recorded.

Given the need to develop a fully online programme, the consultant(s) need to specify the platform for the training sessions.

7.2 Design of the training

Within the first 5 days of the officially agreed start of the project, the consultant(s) will complete the training plan, having gathered information and recommendations from SUNEDU and British Council. The plan will include a schedule and study programme, which will constitute the first deliverable of the consultancy.

Each session will state specific learning outcomes and will be based on the analysis of case studies as well as practical work that will be developed asynchronously or off-line. The objective is that participants elaborate an action plan that will enable them to apply what they have learned in practice.

The methodology should include:

- An approach based on the analysis of practical examples and case studies.
- Enhancement of approaches, principles, theories and concepts applicable to quality assurance in general, and online education and quality assurance, in particular.
- Analysis of UK and international best practices in QA of online education.
- Quality review frameworks, guidelines and tools
- Results-based approach
- Integrated use of online and offline training resources and tasks.
- Inclusion of individualised participant's action plans for the application of course learnings.

7.2 Training delivery

The consultant(s) will deliver the training online, and in Spanish, making appropriate use of digital resources and tools. The course will consist of a total of 16 hours of synchronous webinars/workshops besides offline assignments. If the consultant cannot provide the training in Spanish, they need to include the cost of simultaneous translation for the sessions as well as translation of key materials and presentations.

It is suggested that each of the webinars/workshops be two hours long and take place twice a week at the beginning of the SUNEDU staff member's working day.

The consultant(s) will establish offline tasks that officials must complete between sessions. In addition, tasks should lead to an action plan to encourage the continuing professional development of each participant and the application of skills developed/upgraded as a result of the programme

Each session should build on a combination of feedback from assignments, presentations, online discussions and interactions

Due to the number of participants (twenty) it is expected that consultant(s) establish a strategy to foster personalised learning assessment and evaluation

It is hoped that a forum or online community will involve participants, consultants and the British Council and SUNEDU team in order to monitor and accompany the learning process by clearing up doubts and identifying necessary adjustments.

At the end of the training, all participants who have attended at least 90% of the training programme should be provided with a Certificate of Participation signed by the consultant(s).

The content should include:

- Principles of effective distance learning
- Evaluation of online education.
- Differences between the evaluation of distance and face-to-face education.
- Criteria for the evaluation of distance learning,
- Determine potential evidence.
- Models for evaluating distance learning.
- Institutional versus programme evaluation.
- Methodology to evaluate distance learning (criteria, indicators, instruments, etc.).
- Self Evaluation Document.
- Desktop analysis of the institutional response.
- Verification of the results of the desk-based analysis
- Agreement on findings and supporting evidence
- Establishment of Key Performance Indicators (KPI) for each criterion
- Report of findings
- Approaches to implementation, e.g. pilot implementation

7.3 Evaluation, monitoring and sustainability

The learning materials, process, criteria and case studies should be consolidated in a Handbook for Quality Assurance in Online Higher Education for SUNEDU staff.

It is suggested to hold follow-up sessions after the last webinar/workshop to discuss progress, concerns and challenges in implementing their action plans.

A monitoring and follow-up plan is suggested to ensure proper implementation, measure results and level of satisfaction.

7.4 Governance

The Project will be governed by a management team consisting of a Senior Responsible Officer and a Programme Manager, both from the British Council, who will meet on a weekly basis. Key decisions and recommendations will be made by this group.

The operational part of the programme will be led by a Project Coordinator and a Project Assistant, a British Council team who will report weekly to the management team.

The training part will be carried out by the consultant(s).

After the award of the contract, the consultant will prepare a detailed schedule for the project, a risk register as well as a communication schedule to ensure regular contact and discussion on the progress of the project and the achievement of the deliverables, which will be validated and followed up by the British Council and SUNEDU team.

The Consultant(s) and the British Council project team will work closely with SUNEDU and its designated team, reviewing completed and ongoing activities to ensure that the project meets the agreed outputs within the time frame.

14 Evaluation Criteria

14.1 You will have your tender response evaluated as set out below:

Stage 1: Tender responses will be checked to ensure that they have been completed correctly and all necessary information has been provided. Tenders responses correctly completed with all relevant information being provided will proceed to Stage 2. Any tender responses not correctly completed in accordance with the requirements of this RFP and/or containing omissions may be rejected at this point. Where a tender response is rejected at this point it will automatically be disqualified and will not be further evaluated.

Stage 2: The completed Qualification Questionnaire (*if used*) will then be reviewed to confirm that the potential supplier meets all of the qualification criteria set out in the questionnaire. Potential suppliers that meet the qualification criteria will proceed to Stage 3. Potential suppliers that do not meet the qualification criteria set out in the Qualification Questionnaire (*if used*) may be excluded from the Procurement Process at this point. Where a potential supplier is excluded at this point, its tender response will be rejected in full and not evaluated further and the supplier will automatically be disqualified from this Procurement Process.

Stage 3: If a bidder succeeds in passing Stages 1 and 2 of the evaluation, then it will have its detailed tender response to the British Council's requirements evaluated in accordance with the evaluation methodology set out below. Information provided as part of Qualification Questionnaire (*if used*) responses may also be verified as part of this stage.

14.2 Award Criteria – Responses from potential suppliers will be assessed to determine the most economically advantages tender using the following criteria and weightings and will be assessed entirely on your response submitted:

Criteria	Weighting
Professional experience, qualifications and competencies of the team	40%
Methodology and Approach that demonstrates that the consultant understands the request and the type of organisation the British Council is	40%
Value for Money (Pricing per activities plus maximizing the available budget including senior staffing available)	20%

14.3 Scoring Model – Tender responses will be subject to an initial review at the start of Stage 3 of the evaluation process. Any tender responses not meeting mandatory requirements or constraints (if any) will be rejected in full at this point and will not be assessed or scored further. Tender responses not so rejected will be scored by an evaluation panel appointed by the British Council for all criteria other than Commercial using the following scoring model:

Points	Interpretation
10	Excellent – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas evidence requested in the level of detail requested. This, therefore, is a detailed excellent response that meets all aspects of the requirement leaving no ambiguity as to whether the bidder can meet the requirement.
7	Good – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas of evidence requested, but contains some trivial omissions in relation to the level of detail requested in terms of either the response or the evidence. This, therefore, is a good response that meets all aspects of the requirement with only a trivial level ambiguity due the bidders failure to provide all information at the level of detail requested.

5	Adequate – Overall the response demonstrates that the bidder meets all areas of the requirement, but not all of the areas of evidence requested have been provided. This, therefore, is an adequate response, but with some limited ambiguity as to whether the bidder can meet the requirement due to the bidder’s failure to provide all of the evidence requested.
3	Poor – The response does not demonstrate that the bidder meets the requirement in one or more areas. This, therefore, is a poor response with significant ambiguity as to whether the bidder can meet the requirement due to the failure by the bidder to show that it meets one or more areas of the requirement.
0	Unacceptable – The response is non-compliant with the requirements of the RFP and/or no response has been provided.

14.4 Commercial Evaluation – Your “Overall Price” (as calculated in accordance with requirements of Annex 3 (Pricing Approach) for the goods and/or services will be evaluated by the evaluation panel for the purposes of the commercial evaluation. Prices must not be subject to any pricing assumptions, qualifications or indexation not provided for explicitly by the British Council as part of the pricing approach. In the event that any prices are expressed as being subject to any pricing assumptions, qualifications or indexation not provided for by the British Council as part of the pricing approach, the British Council may reject the full tender response at this point. The British Council may also reject any tender response where the Overall Price for the goods and/or services is considered by the British Council to be abnormally low following the relevant processes set out under the EU procurement rules. A maximum offer score of 10 will be awarded to the tender response offering the lowest “Overall Price”. Other tender responses will be awarded a mark by application of the following formula: (Lowest Overall Price/Overall Price being evaluated) x 10 (rounded to two decimal places) = commercial score.

14.5 Moderation and application of weightings – The evaluation panel appointed for this procurement will meet to agree and moderate scores for each award criteria. Final scores in terms of a percentage of the overall tender score will be obtained by applying the relevant weighting factors set out as part of the award criteria table above. The percentage scores for each award criteria will be amalgamated to give a percentage score out of 100.

14.6 The winning tender response – The winning tender response shall be the tender response scoring the highest percentage score out of 100 when applying the above evaluation methodology, which is also supported by any required verification evidence (to include, without limitation, any updated information or references relating to any Qualification Question responses) obtained by the Authority relating to any self-certification or other requirements referred to in the Qualification Questionnaire (*if used*). If any verification evidence requested from a supplier, or a relevant third party as may be referred to by the supplier in the Qualification Questionnaire (*if used*) as a party prepared to provide such information, is not provided in

accordance with any timescales specified by the British Council and/or any evidence reviewed by the British Council (whose decision shall be final) does not demonstrate compliance with any such requirement, the British Council may reject that tender response in full and disqualify the potential winning supplier from the Procurement Process at that point.
