2 Introduction and Background to the Project / Programme

2.1

Little is known about the way mathematics is being learned and taught in Romania, especially in the primary education. Romanian students score very low at mathematics, both in the main national exams and in international tests such as TIMSS or PISA.

To improve the learning of mathematics, it is important to understand how mathematics is being learned and taught in Romania, at the primary education level, when the basis of mathematical thinking is being set up.

In order to do that, British Council Romania in partnership with the Romanian American Foundation will contract a team made of **1 Academic Manager** (remote work) and 5 consultants who will conduct field work to collect data (locally appointed), with the objectives to conduct a research with the aim to develop a good understanding of the way mathematics is being taught in primary education classes in Romania.

The role of the Academic Manager will be to design and lead on a research with the aim to develop an understanding of the current practices in mathematics classrooms in Romania's primary schools and the needs of teachers and learners. The research will have the following stages, but **please note that we expect the**

Academic Manager to adjust the proposed tools/methods/design if s/he thinks it is needed. However, any adjustments to the methodology/tools suggested below must be announced by 9 December 2022.

STAGE 1

Timeline: 15 December 2022- 15 February 2023

Database creation of the research target group (British Council Projects team)

Development of the research tools 1 & 2 (Academic Manager)

Tool 1: Teacher self- assessment questionnaire -online

Tool 2: Head teachers questionnaire – online

This questionnaire will be sent online by the British Council project team to at least 200 primary school teachers. Answers will be translated if necessary and sent to the Academic Manager to analyse them. The Academic Manager analyses the answers to include findings in the final Baseline Study report and uses the findings to inform the development of future research tools(Academic Manager)

STAGE 2

Timeline: 15 February- 15 April 2023

The Academic Manager develops other research tools (Tools 3, 4, 5, 6, 7, 8)

Tool 3: Teacher Interview guide (developed based on the results of the teacher self- assessment)

Tool 4: Lesson / Learning unit plan analysis based on a framework designed to reflect teaching for understanding

Tool 5: Classroom Observation template (based on a protocol selected by the Academic Manager; we suggest an observation protocol based on Teaching for Robust Understanding (TRU) framework (Schoenfeld) but we are open to other suggestions

Tool 6: Post-observation reflection interview with the case study teachers

Tool 7: Focus group interview guide with students

Tool 8: Head teacher interview template

40 primary education teachers whose lessons will be observed (case study teachers) and their 40 head teachers identified by the British Council and consent obtained for the observations. (British Council)

5 consultants who will gather data and conduct field research will be recruited. The Academic Manager will produce Terms of Reference for the positions, shortlist applications and conduct together with British Council recruitment interviews online.

The 5 consultants selected will be trained by the Academic Manager in how to conduct the field research (tools, aims etc) (Academic Manager- 2 days training delivery/ British Council arranging logistics if the training will be face to face in Bucharest)

STAGE 3

Timeline: 15 April- 1 June 2023

Field research

British Council team will organize the logistics of 5 consultants travelling in 10 different parts of Romania, big urban, small urban and rural, including disadvantaged rural areas to conduct each: 8 classroom observations, 8 interviews with the teachers observed (reflection post-observation), 8 focus groups with 40 students in total, 8 interviews with the school directors of the schools where the observations take place. The consultants will collect

1 Learning Unit/Lesson plan from each teacher and send it to the British Council team. The 40 Learning Units/lessons plans will be translated and shared with the Academic Manager, who will analyse them. The consultants will collect data on the field and send the findings to the Academic manager for analysing them. The consultants will write a report for each case study. Reports will be shared with the Academic Manager who will analyse them.

STAGE 4

Timeline: 1-15 June 2023

The Academic Manager develops research tools 9 and 10, that are meant to capture the views of other relevant stakeholders (experts in primary teachers' education, mathematics teachers' educators etc)

9 Interview guide for Local Inspectors and Teacher educators

10 Interview guide for other relevant experts related to the teaching of mathematics (ex. NGOs working with teachers of mathematics, pre-service teachers preparators etc)

The Academic Manager/ the 5 consultants (if inspectors, experts, teacher educators do not speak English) conduct online interviews/ focus groups with 10 local inspectors and 10 teacher educators.

The Academic Manager conducts online interviews with other relevant experts in Romania in the teaching and learning of mathematics (10 people, individual or group interview/focus group)

British Council liaises with the participants to the interviews, sets up the logistics of arranging the interviews.

STAGE 5

15 June- 15 July 2022

The Academic Manager produces the Baseline Study Report, based on all the data collected and analysed by her/ him in all the stages of the research.

Overall, the report will:

- Provide insight on the needs of teachers and learners of mathematics in primary schools in Romania
- Assess the current levels, teaching practices and needs of teachers and learners in grades 0 to 4
- Explore the main areas for development of mathematics teaching
- Make recommendations to the design of future interventions

Responsibilities of the team:

The local **British Council team** will be responsible for the:

- identification of the participants in the research: mostly primary school teachers teaching mathematics, but other relevant stakeholders as well (i.e. local school inspectors, heads of schools, pupils etc)
- the logistic organisation of the research (i.e. visits, interviews, focus groups etc).

The **5 Romanian consultants locally appointed** will be responsible for:

- Conducting field research in 10 locations in Romania (interviewing 40 teachers, conducting 40 classroom observations, post-observation reflection discussions with 40 teachers, interviewing 40

heads of schools, focus groups with 40 learners, collecting lesson plans), writing case study teachers reports and sending all the data to the Academic Manager to be analysed by him/her.

- Conducting interviews/focus groups with 10 school inspectors, 10 teacher educators and 10 other relevant experts and stakeholders (where participants don't have a good English level and therefore the Academic Manager can't do these him/herself).

The Academic Manager will be responsible for:

- The whole design of the research
- Design of research tools
- Recruitment of the 5 Romanian consultants (with the British Council team)
- Training the 5 consultants in how to use the research tools and methods used
- Academically coordinate the team of 5 consultants
- Analyse all the data gathered from the tools
- Produce the final report

13.4 The British Council may at any time request further information from potential suppliers to verify or clarify any aspects of their tender response or other information they may have provided. Should you not provide supplementary information or clarifications to the British Council by any deadline notified to you, your tender response may be rejected in full and you may be disqualified from this Procurement Process.

14 Evaluation Criteria

14.1 You will have your tender response evaluated as set out below:

Stage 1: Tender responses will be checked to ensure that they have been completed correctly and all necessary information has been provided. Tenders responses correctly completed with all relevant information being provided will proceed to Stage 2. Any tender responses not correctly completed in accordance with the requirements of this RFP and/or containing omissions may be rejected at this point. Where a tender response is rejected at this point it will automatically be disqualified and will not be further evaluated.

Stage 2: The completed Qualification Questionnaire (*if used*) will then be reviewed to confirm that the potential supplier meets all of the qualification criteria set out in the questionnaire. Potential suppliers that meet the qualification criteria will proceed to Stage 3. Potential suppliers that do not meet the qualification criteria set out in the Qualification Questionnaire (*if used*) may be excluded from the Procurement Process at this point. Where a potential supplier is excluded at this point, its tender response will be rejected in full and not evaluated further and the supplier will automatically be disqualified from this Procurement Process.

Stage 3: If a bidder succeeds in passing Stages 1 and 2 of the evaluation, then it will have its detailed tender response to the British Council's requirements evaluated in accordance with the evaluation methodology set out below. Information provided as part of Qualification Questionnaire (*if used*) responses may also be verified as part of this stage.

14.2 Award Criteria – Responses from potential suppliers will be assessed to determine the most economically advantages tender using the following criteria and weightings and will be assessed entirely on your response submitted:

Criteria	Weighting
Quality	[50]%
Methodology and Approach	[40]%
Commercial	[10]%

14.3 Scoring Model – Tender responses will be subject to an initial review at the start of Stage 3 of the evaluation process. Any tender responses not meeting mandatory requirements or constraints (if any) will

be rejected in full at this point and will not be assessed or scored further. Tender responses not so rejected will be scored by an evaluation panel appointed by the British Council for all criteria other than Commercial using the following scoring model:

Points	Interpretation
10	Excellent – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas evidence requested in the level of detail requested. This, therefore, is a detailed excellent response that meets all aspects of the requirement leaving no ambiguity as to whether the bidder can meet the requirement.
7	Good – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas of evidence requested, but contains some trivial omissions in relation to the level of detail requested in terms of either the response or the evidence. This, therefore, is a good response that meets all aspects of the requirement with only a trivial level ambiguity due the bidders failure to provide all information at the level of detail requested.
5	Adequate – Overall the response demonstrates that the bidder meets all areas of the requirement, but not all of the areas of evidence requested have been provided. This, therefore, is an adequate response, but with some limited ambiguity as to whether the bidder can meet the requirement due to the bidder’s failure to provide all of the evidence requested.
3	Poor – The response does not demonstrate that the bidder meets the requirement in one or more areas. This, therefore, is a poor response with significant ambiguity as to whether the bidder can meet the requirement due to the failure by the bidder to show that it meets one or more areas of the requirement.
0	Unacceptable – The response is non-compliant with the requirements of the RFP and/or no response has been provided.

14.5 Moderation and application of weightings – The evaluation panel appointed for this procurement will meet to agree and moderate scores for each award criteria. Final scores in terms of a percentage of the overall tender score will be obtained by applying the relevant weighting factors set out as part of the award criteria table above. The percentage scores for each award criteria will be amalgamated to give a percentage score out of 100.

14.6 The winning tender response – The winning tender response shall be the tender response scoring the highest percentage score out of 100 when applying the above evaluation methodology, which is also supported by any required verification evidence (to include, without limitation, any updated information or

references relating to any Qualification Question responses) obtained by the Authority relating to any self-certification or other requirements referred to in the Qualification Questionnaire (*if used*). If any verification evidence requested from a supplier, or a relevant third party as may be referred to by the supplier in the Qualification Questionnaire (*if used*) as a party prepared to provide such information, is not provided in accordance with any timescales specified by the British Council and/or any evidence reviewed by the British Council (whose decision shall be final) does not demonstrate compliance with any such requirement, the British Council may reject that tender response in full and disqualify the potential winning supplier from the Procurement Process at that point.
