2 Introduction and Background to the Project / Programme

2.1 We support the Ministry of Education Science and Technology (MoEST) for high-quality education systems for the teaching, learning and assessment of English through our global programmes. To deliver our global programmes, teacher educators are our key audiences. Teacher educators hold a critical role in the professional growth of teachers. However, we currently lack insight into the selection process for teacher educators, their pathways to becoming teacher educators, the necessary competencies for recruitment, the provision of Continuing Professional Development (CPD) opportunities, and the challenges they encounter when supporting teachers. These gaps in knowledge impede our ability to effectively address their needs.

Although the School Education Sector Plan (SESP) for 2021-2030 recognizes the vital role of teacher educators and emphasises the importance of their continuous professional development, little attention

has been given to the professional development of teacher educators. Particularly, there is currently no established competency framework for teacher educators. In 2023, a research initiative was jointly undertaken by the British Council and the MoEST / Center for Education and Human Resources Development (CEHRD) to explore the practices, perspectives and professional needs of in-service teacher educators in Nepal.

The research has strongly recommended that it is important to formally recognise the important role that in-service teacher educators play in an educational system, and one way of contributing to this is to establish a framework for teacher educators professional standards.

As a result of the research finding the British Council is working together with CEHRD to develop a competency framework for teacher educators in Nepal which will define the competences – skills, knowledge, attributes – that effective in-service teacher educators require, and which will provide the basis for the development of updated teacher educators preparation courses that address these competences.

We are looking for **one** international consultant to lead the technical aspect of the development of this competency framework with **maximum of 25 days of remote working** in total.

2.2 The purpose and scope of this RFP and supporting documents is to explain in further detail the requirements of the British Council and the process for submitting a proposal in response to this RFP (“**Proposal**”).

Any Proposal not correctly completed in accordance with the requirements of this RFP and/or containing omissions may be rejected at this point. Stage 2: If a bidder succeeds in passing Stages 1 of the evaluation, then it will have its Proposal evaluated in accordance with the evaluation methodology set out below.

13.2 Award Criteria – Responses from potential suppliers will be assessed to determine the most economically advantages proposal using the following criteria and weightings and will be assessed entirely on your response submitted:

Any Proposals not meeting mandatory requirements or constraints (if any) will be rejected in full at this point and will not be assessed or scored further. Proposals not so rejected will be scored by an evaluation panel appointed by the British Council for all criteria other than Commercial using the following scoring model:

Points	Interpretation
10	Excellent – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas evidence requested in the level of detail requested. This, therefore, is a detailed excellent response that meets all aspects of the requirement leaving no ambiguity as to whether the bidder can meet the requirement.
7	Good – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas of evidence requested, but contains some trivial omissions in relation to the level of detail requested in terms of either the response or the evidence. This, therefore, is a good response that meets all aspects of the requirement with only a trivial level ambiguity due the bidders failure to provide all information at the level of detail requested.
5	Adequate – Overall the response demonstrates that the bidder meets all areas of the requirement, but not all of the areas of evidence requested have been provided. This, therefore, is an adequate response, but with some limited ambiguity as to whether the bidder can meet the requirement due to the bidder’s failure to provide all of the evidence requested.
3	Poor – The response does not demonstrate that the bidder meets the requirement in one or more areas. This, therefore, is a poor response with significant ambiguity as to whether the bidder can meet the requirement due to the failure by the bidder to show that it meets one or more areas of the requirement.

0	Unacceptable – The response is non-compliant with the requirements of the RFP and/or no response has been provided.

The British Council may also reject any Proposal where the Overall Price for the goods and/or services is considered by the British Council to be abnormally low following the relevant processes set out under the procurement rules. A maximum offer score of 10 will be awarded to the Proposal offering the lowest “Overall Price”. Other Proposals will be awarded a mark by application of the following formula: (Lowest Overall Price/Overall Price being evaluated) x 10 (rounded to two decimal places) = commercial score.

13.5 Moderation and application of weightings – The evaluation panel appointed for this Procurement Process will meet to agree and moderate scores for each award criteria. Final scores in terms of a percentage of the overall Proposal score will be obtained by applying the relevant weighting factors set out as part of the award criteria table above. The percentage scores for each award criteria will be amalgamated to give a percentage score out of 100.

13.6 The Winning Proposal(s) The winning Proposal shall be the Proposal scoring the highest percentage score out of 100 when applying the above evaluation methodology, which is also supported by any required verification evidence (to include, without limitation, any updated information)] obtained by the Authority relating to any self-certification or other requirements referred to at any time in this Procurement Process when applying the above evaluation methodology, which is also supported by any required verification evidence (to include, without limitation, any updated information)] obtained by the Authority relating to any self-certification or other requirements referred to at any time in this Procurement Process.
