Introduction

Thank you for your participation in the Thematic Webinar on **Engineering and Technology** and **Finance Business and MBA** Courses in the UK.

The purpose of this report is to provide you with a summary of the event. We trust that this report will enable you to evaluate and take decisions about being part of marketing, brand profile raising and brand presence enhancing activities with the British Council SSA.

At British Council, we always look forward to hosting you and arranging promotional and recruitment events for you. The target audience in SSA welcomes this interaction with you on British Council platforms. We look forward to your continued support and will continue to provide valuable marketing services through range of other targeted activities during the year. We hope to have you with us for our upcoming webinars as well.

Regards,
IES SSA team

Programme flow

Engineering and Technology	
Participating institutions <ul style="list-style-type: none"> • Middlesex University • Heriot Watt University • Falmouth Games Academy 	Webinar attendance: <ul style="list-style-type: none"> • 267 pre-registrations • 84 attendees joined the event • 19 questions published in the chat box
<u>General Highlights</u> <ul style="list-style-type: none"> <input type="checkbox"/> The session was well received with lots of engaging questions around internships and employment post-graduation, eligibility criteria for students with non-engineering backgrounds, course composition, foundation programmes, changes to teaching and learning due to covid-19, tuition and scholarships, branch campuses etc. <input type="checkbox"/> Feedback received was positive with participants attesting to enjoying the session and UK institutions appreciating the platform to engage directly with students on the subject matter 	
Finance, Business and MBA	
Participating institutions <ul style="list-style-type: none"> • Heriot Watt University • University of Chester • Coventry University 	Webinar attendance: <ul style="list-style-type: none"> • 936 pre-registrations • 221 attendees joined the event • 26 questions published in the chat box
<u>General Highlights</u> <ul style="list-style-type: none"> <input type="checkbox"/> The number of leads as well as extent of participation and engagement was a testament to the level of interest and demand for business and MBA courses. Questions centered around pathways to a PhD in Business management, extent to which program modules reflect doing business in Africa, exemptions for professional accounting and finance qualifications, HND top-up, academic progression, online and short courses, postgraduate diplomas, student support as well as the business school experience. Apart from the predetermined presentations, these breadth and depth of questions gave each participating University a chance to contribute extensively while sharing their approach to MBA and business studies and offering incentives for prospects to engage with them. <input type="checkbox"/> Delegates commended the session format. It was very interactive as the questions asked after each presentation got responses from the presenting University and other Universities present. This ensured each institution covered all queries from the audience. Feedback from one of the University representatives was, <i>"thank you for organizing the session which enabled us interact and communicate with the audience. The insightful questions allowed us give a full view of the MBA programme"</i>.

studyuk_nigeria Falmouth University's Games Academy has once again been featured as one of the top 50 games schools in the world by the Princeton Review.

Our ranking for 2020 is 4th in Europe, 6th outside the USA and number 39 in the world. We are the only English institution to make the list, and one of only two in the UK. The Games Academy ranks above established names such as MIT, Full Sail and DePaul University.

At Heriot-Watt University, our Engineering and Technology programmes are accredited, internationally recognized and taught by our world leading academics whose major interest is to provide our students with the skills and knowledge needed to excel in their careers.

British Council Ghana Favorites November 4

At Heriot-Watt University, our Engineering and Technology programmes are accredited, internationally recognized and taught by our world leading academics whose major interest is to provide our students with the skills and knowledge needed to excel in their careers.

Several of our graduates have gone to work with top firms like Baker Hughes, Shell, Ferrari, ExxonMobil, etc

We have consistently ranked Top 10 for several of our Engineering programmes across key university league tables (Guardian 2019, Good University Guide 2019, NSS 2020, Complete University Guide 2021). Along with our excellent facilities to deliver high quality education, Heriot-Watt is highly regarded for the professional relevance of our degrees.

Join our free webinar on 12 November at 12.30 GMT. Register via this link to save your seat: <https://bit.ly/2HUerp0>

Student Testimonials

As a student at Falmouth University I consider it a key part of the journey that got me to where I am now, and although this was before digital studies were taught there, I have been very impressed with the facilities, staff and students I have met when returning in more recent times. I'm really quite jealous of what is happening there now! Rex Crowle BAFTA Winning Game Artist and Designer, Media Molecule

The degree has provided a great platform of endless opportunities. I have acquired excellent understanding of my discipline which has positioned me as a champion among my peers. - Raseel Lawal, Nigeria, MSc Petroleum Engineering

I would not have been able to achieve all that I have in my career without Heriot-Watt University. I can honestly say, I found myself at Heriot-Watt. It made me a stronger and better person. - Ethei Koppa, Tanzania - MSc Construction Project Management.

The screenshot shows two versions of the British Council website. The left version is for Nigeria (britishcouncil.org.ng) and the right version is for Ghana. Both pages feature a dark purple header with the British Council logo, the country name, a search icon, and a menu icon. Below the header is a carousel of images showing students in a classroom setting. The Nigeria page has a banner with the text: "Build your ideal career with a degree from the UK through our Study UK subject webinar series" and a "Register Now" button. The Ghana page has a banner with the text: "Subject Webinar Series Register here for the upcoming webinar" and a "Register" button. Below the banners, the Nigeria page has a section titled "Welcome to the British Council in Nigeria" and a sub-header "Unlock your potential and take your career to the next level!". The Ghana page has a sub-header "Unlock your potential and take your career to the next level!".

Welcome to the British Council in Nigeria

Unlock your potential and take your career to the next level!

From Management courses and MBA, to Creative Arts and Social Sciences; from Artificial Intelligence to Climate Change and environment studies, the UK is a fantastic place to pursue your interest in these courses.

British Council's Subject Webinar Series will take you one step closer to studying your subject of choice in the UK. Each webinar will focus on a different theme and subject, providing specialised details on applications, scholarships and work prospects. The series will cover a wide range of topics by experts from UK Universities which will help you prepare for your studies in the UK.

Key highlights

The webinars bring together leading universities from the UK, so attendees will get first-hand information on:

- UG and PG courses for these specific subjects

Is there a regional office in Ghana?

Moderator 11/12/2020 1:55 PM
at Middlesex, our Nigerian team will be able to support you. We dont have a Ghana office right now.

Anonymous 11/12/2020 1:58 PM
what is the ratio of lecture to tutorial time during a typical engineering course? 50:50? Or 70:30?

Moderator 11/12/2020 2:00 PM
at Middlesex, it would be 70% lectures and 30% tutorials

Anonymous 11/12/2020 1:59 PM
for the two years MSc degree, do I need to pay tuition fees twice? And will I have to
