

## **Promote your school in the UK Boarding Schools Marketing Campaign Japan 2019**

We are delighted to invite UK boarding schools to participate in our **UK Boarding Schools Marketing Campaign 2019**.

This integrated campaign aims to showcase UK boarding schools to targeted audiences through print and online channels. With interest in boarding schools growing in Japan, this campaign represents an excellent opportunity for UK schools to raise profile and reach key influencers including parents, agents, and school counsellors.

### **Benefits of participating**

- **Reach a growing market**  
The boarding school market in Japan has shown strong growth in recent years with the number of Japanese students at UK independent schools increasing 59% between 2013 and 2017.
- **Raise brand awareness among key influencers**  
This campaign is aimed at parents, agents and school counsellors – all key influencers in the boarding school sector.
- **Association with the British Council:**  
British Council has a long-established reputation in Japan for the provision of trustworthy and reliable information on study opportunities in the UK.
- **A cost-effective method of reaching a wide audience through multiple channels**  
The campaign utilizes a variety of online and print channels making this a cost-effective way of building brand awareness among target audiences and maximizing the exposure of your school without having to travel to Japan.

### **Market Background**

Growing interest in Japan in UK boarding schools is reflected in the latest Independent Schools Council (ISC) Census published in April 2018, as well as Tier 4 Child Visa issuances for 2017.

#### **2018 ISC Census**

- 16% increase in total number of Japanese students studying at ISC schools (2017: 924, 2018: 1,068)
- 17% growth in the number of Japanese pupils, **whose parents live in Japan**, studying at ISC schools (2017: 336, 2018: 392)
- 22% increase in the number of new Japanese pupils, **whose parents live in Japan**, studying at ISC schools (2017: 128, 2018: 156)
- 15% growth in the number of Japanese pupils, **whose parents live in the UK**, studying at ISC schools (2017: 588, 2018: 676)

#### **2017 Tier 4 Child Visa Issuances**

- 15% increase in 2017 (2016: 251, 2017: 289)

The upward trend in the market can be attributed to a host of factors. A growing awareness in Japanese society of the importance of gaining study abroad experience from a young age is a key driver, as is wider awareness and understanding of the IB and A-Levels, both of which have received increased media coverage in recent years. Meanwhile, government support for study abroad through the Tobitate scholarships programme and wider demands from industry for graduates with 'global skills' are also helping to boost interest in overseas study.

### Campaign Format
