

Inter College IT Quiz Contest

Education UK Quiz contest

'UK Week' was hosted at the British Council premises from 28th of July to the 1st of August. It was successful in attracting a good number of participants in its inaugural year. The program was held at the British Council premises and during the course of the week we had 220 students participating in the various activities.

Objective & Activities

'UK Week' was organised with the objective of building awareness among Nepalese students about the UK's education system, its culture and its society.

There was a vibrant atmosphere throughout the week with students thronging to receive counselling, attending screenings of blockbuster movies and participating in interactive UK related quizzes. One of the main attractions of the week was the presentations by UK universities. Further value was driven by providing attendees with an IELTS tip session and by running a Q&A program with Nepalese graduates from UK universities.

Participating UK Universities

Since the event was organized with the objective of raising the profile of education in the UK in the Nepalese market, it was critical to receive support from the University sector. We had three Universities who enthusiastically participated not just by providing sponsorship but also by committing their time to interact with students. This was done through on-ground as well as virtual presentations.

The participating universities this year were:

1. Sheffield Hallam University
2. Bath Spa University
3. The Manchester College

UK Week @ British Council Nepal

Audience

Through the course of the week we saw participation from two Kathmandu schools running A-levels as well as a school running the local board. While most students were interested in the undergraduate options we also saw participants from individuals that were seriously considering a post graduate degree in the UK.

Conducted from 28th July to 1st August, 'UK Week' was a great success. The participants expressed that UK Week was an "insightful experience with informative seminars, entertaining movies and interactive quizzes." They felt it was the right combination of learning and fun and were further encouraged to explore UK as a study destination.
