In the virtual world, the greatest value lies in the ability to reproduce live interactivity and authenticity. We promise the best synchronous online education in **Real-Time**, with **Real Tutors** and **Real Result!**

Take the stress out of learning and enjoy a class **Anytime, Anywhere**, on **Any device**. Whether it be a 15-minute break during commute or a 2-hour window in transit, there's a tutor standing by for you.

With services so convenient, improving your English or Mandarin Chinese has never been easier!

Real Tutors, Live Interaction

Interact live with thousands of native speakers. Our online classroom is designed to enhance the overall learning experience and efficacy. The result speaks for itself. We believe total immersion with a live tutor is the only way to master a language, any language!

Personalized Curriculum

By analyzing a multitude of key benchmarks such as your interests, preferences and proficiency level, our patented DCGS engine generates a customized courseware just for you. Additionally, small class sizes averaging 2-4 students provides ample opportunity for speaking and interaction.

Measurable Result

With a proprietary LMS (Learning Management System), you can easily monitor, manage and evaluate your learning milestones. Coupled with our **TFM (TriDimension Feedback Mechanism)**, an industry-first where feedback is exchanged between Tutor-Student / Student-Tutor / Student-Student, language learning is accelerated through collaborative learning.

Anywhere, Anytime, Any device

Want to attend a live class on the beach with a tutor from New York? Sure! With our pressure-free learning environment, your classroom is anywhere you are! Join a class anytime (Yes, Anytime!) from any device, be it your smartphone, tablet, laptop, desktop or SmartTV.
